(54) Title: HOLDER AND METHOD FOR COOLING OR HEATING SAMPLES

(57) Abstract: A holder for a microtitreplate or an array of separate test tubes comprising a first panel (1) provided with a recess (2) for receiving each well (3) of the microtitreplate or test tubes and a second panel (7), which together with the first panel (1) and three side walls (5) form an inner space (8). The fourth side (9) comprises an inlet (10) for gas or liquid, whereby the gas or liquid entering the inner space (8) via the inlet (10) leaves the inner space (8) via said recesses (2), along the outside of the wells (3). A method for cooling or heating samples contained in wells (3) of a microtitreplate or an array of separate test tubes by inserting the microtitreplate or array of separate test tubes into such a holder and letting gas or liquid enter said inner space (8).
